Election/Restrictions

This application encompasses 3 species of the inventive subject matter, as for example, the species of Figures 1, 6, and 8, and subspecies of Figures 5A and 5B respectively. Pursuant to 35 USC §121, applicant is required for a complete response to (1) elect a single disclosed species together with a single disclosed subspecies, and (2) list all claims readable on the elected species including and any claims subsequently added (MPEP 809.02 (a)).

Applicant is further advised that a mere argument alleging that a generic claim exists or is allowable will not satisfy a species election requirement. For a complete response, applicant must elect a single species and list the claims readable on that species as set forth above.

1. A telephone call was made to Scott Vincent on 6/24/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
